

ComancheZOOM August 20, 2300Z / 7pm EDT

**Top 10 Comanche Tips for New Comanche Owners – continued
and Announcements of Comanche Group Buys**

presented by CJ Stumpf & Darrell Pool

TOP TEN TIPS FOR NEW COMANCHE OWNERS: As expected, the August 6 session was a really fun and animated ComancheZOOM with everyone participating, but we only got through the first 6 Tips. This Zoom brought the rest of the story, plus an update on a number of Comanche specific developments in autopilots, safety and hardware.

These Tips are derived from a combination of new owners and very experienced Comanche leaders talking together at Comanche Town. They are talking points, not the Ten Commandments. Each point will be raised and immediately followed by a Q&A of up to 5 minutes, with a general Q&A at the end. You will enjoy a fun discussion!

The updates include the three autopilot systems nearing STC qualification, two sources of STC'd shoulder harness, LED replacements for Comanche landing and navigation lights, and a deal on dynamic propeller balancing. Each will be offered with significant discounts to Comanche owners.

As always, everyone is welcome! You do not need to be a member of any organization to attend these ComancheZOOM sessions. This is continuation of the first of Five "Top Ten" Series...Stay tuned!

Disclaimer, these talking points derive from many individuals' personal operating experiences in a range of aircraft types and should not be construed as professional advice.
