

## Kristin Winter on "Falling Off Your Log"

ComancheZOOM socially distant fly-in,  
Thursday, May 28, at 7:30PM EDT (opened at 7:00PM EDT, 23:00Z)

Logbooks can easily control 30% to 50% of your airplane's value. Learn how to keep them up to snuff.

Kristin Winter is a well-known A&P/IA, CFIAIM/ATP. She discusses the owner's obligations to maintain aircraft maintenance records; what constitutes a proper logbook entry, and the mechanic's obligations for documenting their work; maintaining an AD compliance sheet, protecting your maintenance records; and what documents must be kept in the aircraft. Kristin flies her Twin Comanche, hosts the Airworthy Comanche Forum on Delphi, flies professionally, instructs, and provides purchasing and operations consulting.

The meeting opened at 7:00 PM ET for pre-session hangar flying. A brief Introduction of the Comanche GAP program by Bill Cunniff began around 7:15, followed by Kristin's presentation at 7:30. Questions were posed using the CHAT box as well as live questions from those attending via ZOOM. Those attending by phone could text questions to 617-816-8766. Moderator Pete Morse lead and recorded the session.
