

ComancheZOOM for Thursday, April 18, 2024

**Topic: Aircraft Modifications – Part 2**

This is a continuation of the Zoom session of April 4, "Changes you have made to your airplane to make it better". And please tell us the results of those changes.

This Zoom spent a fair amount of time on the twin Comanches. As usual, we did not get to everyone so a Part 3 may happen in the near future.

Several participants described the modifications and upgrades they performed on their aircraft. An IA/DER described the revised FAA reporting on failed electronic equipment. Such warnings from your panel display are now classified as reportable incidents, with continued flight not approved.
