

ComancheZOOM for April 22, 2021

Topics: ComancheTown 2021 Redux New and Possible Group Buy Opportunities

ComancheTown at the 2021 Sun n' Fun gathering in Lakeland, FL, was a huge success. Nearly 50 Comanches checked in for parking and camping in our reserved Vintage Camping area. And the weather cooperated!

This Zoom began with an extended discussion by senior Comanche pilots on methods to tweak the engine for real economy and best performance, including the method used by Max Conrad in his record setting flights. (the main topic presentation was delayed 20 minutes to capture everything said)

Topics covered in the more formal presentation were:

- CJ describing the history of the ComancheTown concept while Pete Morse displayed numerous photos taken at Lakeland (like the one above).
- CJ providing update details of the three Comanche autopilot projects, including a surprise announcement from Garmin.
- A discussion of changes for ComancheTown participation at this year's AirVenture in late July.
- A quick update on additions to the [NortheastComanche.org](http://northeastcomanche.org) website by Pete Morse.
- A discussion of possible approaches to reducing costs while providing insurance for our aging aircraft and pilots.
