

ComancheZOOM for Thursday, December 29, 2022

Our Sung & Unsung Heroes

“Collecting our history of sung & unsung heroes”

There are many individuals who have brought improved safety and innovation to the world of Comanche aircraft. The engineers and DER's who have created, modified or replicated parts for our aging fleet, the instructors who have given freely of their knowledge to make us better and safer pilots, the A&P and IAs who have worked tirelessly to keep our aircraft flying, and the team of volunteers who have worked behind the scenes to bring this community together through email communications, phone calls, and these ComancheZOOMs. And don't forget the FAA folks who have validated our efforts through WINGS credit and guidance.

In this last ComancheZOOM of 2022 we bring our stories of heroes like Maurice Taylor, Bob Weber, Hans Neubert, Larry Larkin, Sheila Scott, Donna Holoway. and also those perhaps not so well known but crucial people, like key type expert A&Ps such as Put Putnam/Doug Pickett (WI), Danny Stark (WA), Bill Turley (FL), Kristin Winter (MN) and more. Add others who got key STCs and/or got and shared 337s, or supplied the crucial part or knowledge, or gave you fuel or oil when you needed it so you would continue in safety - the days someone went over and above. Or great CFII/MEIs and just plain good friends who cared enough to help you figure out that key skill, or put you in the Hangar, or lent you tie downs.

We probably would not be still flying without this community support.

And to all, we hope your Christmas was merry and your New Year is bright,

Pete Morse for the ComancheZOOM team
