

ComancheZOOM for July 8, 2021

Topics: Air Conditioning for Comanches Part II

We continue this hot topic with four innovators and entrepreneurs who will discuss AC solutions that can be added to your Comanche with a logbook or 337 entry. The focus is on Comanche community owners who are doing amazing innovations in compressor driven electric units, but will also cover the ArcticAir & IcyBreeze's ice cooled units.

The general discussion was wide-ranging, covering landings (power, flaps, speed) and go-arounds, memorable flight experiences, and information about the AirVenture arrival and ComancheTown parking. This last item is the subject of the next ComancheZOOM.
