Title: **RIP Phillip Tyner and Comanche Updates**

We begin this week's program with a Celebration of the life of our dear friend, Phillip Tyner of Webco. Phillip passed away Saturday, June 4, 2022. He was only 63. For 30 years he was the voice of Webco -- quick with a joke and possessing the rare gift of knowing all our voices and names. He knew all about Comanches, every last part number, and whether Webco had it or, in those rare cases Webco did not, where we might get it. Phillip was an irreplaceable part of our community and we have truly lost one of our own. A number of Comanche pilots shared their remembrances and stories of interactions with Phillip.

We then announced a new group buy special with a brief demo of the CoFlyt App & System (CoFlyt.com). This is described as Aircraft Ownership. Simplified. Coflyt® combines inspections and maintenance tracking, scheduling, and billing into a simple, mobile app to provide peace of mind for aircraft owners. CoFlyt allows you to automate multiple aspects of your aircraft management. A full deep-dive ComancheZOOM will be scheduled in near future.

There followed an Open Mic Zoom covering a number of topics and updates on other projects.
