

ComancheZOOM for June 8, 2023

Topic: Remote Landing Gear Inspection

Will Carpenter put his 260, after an engine failure, in a Carolina beanfield, with both pilot and airframe awesomely unscathed. Leveraging the ComancheZOOM team as a support base, Matt Kurke, Will, and the Beechcraft shop that did the repair and reassembly, performed a remote and extremely detailed inspection of Will's Comanche after the repairs.

For background see the Feb 21, 2021 ComancheZOOM. You can view the Link page to the entire Zoom recording of the inspection at [/Zoom/May25_ComancheVirtualGearConsultation_link](#)

Matt Kurke is currently recovering from surgery. We began tonight's recording of the Zoom with a chance for everyone to leave a "good wishes" message for him.
