

Tonight's ComancheZoom, #52

Painting your Comanche

presented by Luke Strawbridge of Ace Aircraft Refinishing

Paint is the fourth most expensive thing we do to our Comanches, and is both a speed mod in its own right as well as a sensory pleasure and a key determinant in valuation. Join Luke Strawbridge in a discussion of Selecting your Paint Shop, Factors in Determining your Paint Scheme, Paint Talk (Definitions), Aircraft Paint Types and why Automotive Paint doesn't cut it (when is the last time you saw a car going 180 MPH in rain?), Paint Care & Feeding, How to Work with your Paint Shop, and more.

Also: Introducing a Paint Group Buy Special - believe it or not, we can work together to bring efficiencies to the Comanche painting process and save thousands. Please bring the name of your favorite regional paint shop!
