

ComancheZOOM for November 18, 2021

**TOPIC: Open discussion night**

Viewers got a turn to set the topic of the moment. Any particular question or a suggested topic was put it in the Chat window, along with the name and Comanche model of the person so we can keep track.

We then went through each message, thereby setting the agenda for the night. We tried to get to everything by keeping each topic concise and the discussion relatively short.

Items covered included:

- Engine overhaul experiences
- Tricks to tweak for the best performance (speed, economy, range)
- A quick summary of the Autopilot Costs/Hours situation for Twincos
- Looking for suggestions for 2022 fly-in locations.
- Do you know all the Comanche drivers who live near you? Would you like to?
- TBO vs power settings
- Shock cooling vs latitude

And there were other topics which we did not have time to cover. Stay tuned!
