

ComancheZOOM for Thursday, November 30, 2023

Topic: Open Mic – Piper rudder NPRM and other ADs

Tonight there was no specific topic presentation. There was general discussion of some particular questions about maintenance and other subjects.

The majority of the time was spent on an explanation by members of the NPRM research team on how to best word a replay to the FAA's Piper rudder NPRM. The format used, as demonstrated by Dave Schober, was to copy the FAA document, then insert comments following a specific point in their document. This puts the comment right next to their presentation of data.

You can comment on this NPRM at:
