

ComancheZOOM for Thursday, October 5, 2023

Topic: Miscellaneous topics

This ComancheZOOM is a mixture of several unfinished topics.

- Review of the final Reno air race event
- Northeast Comanche Tribe, Inc recent AGM
- Information on recently experienced GPS “Spoofing”
- Update on electronic magneto replacement options

Comments by a number of Comanche pilots on the final running of the Reno air races at Stead. A look back at some of the milestones reached and the incredible planes and pilots who accomplished them.

The Northeast Comanche Tribe, Inc held its Annual General Meeting at the recent Butler Airport (BTP) fly-in at Butler PA. The meeting was held both in person and on Zoom. An update on recent Tribe activities was followed by the conclusion of the Tribe election, with the current officer reelected as the slate. The Treasurer declined to run so that position is currently vacant.

A discussion of the recent GPS “spoofing” in the middle east when false data was broadcast causing commercial aircraft to fly along erroneous flight paths. Military GPS systems are hardened to prevent this activity, but other systems, like those in GA aircraft, are not, and can fall prey to this disruption of service.

The Shure Fly electronic ignition has become available as a group buy thanks to efforts in Australia. It joins the Electro Aire system already available. Hear comments by current users. Hear many other anecdotal comments on various other subjects.
