

ComancheZOOM for Thursday, September 21, 2023

Topic: “State of the Comanche World” update

This ComancheZOOM is the first of two evenings to cover various topics as an update to projects and events to date.

Planned topics include:

1. Saving airports (5 airports now involved)
2. Parts project (update on 4 projects)
3. Group buys (4 in the works)
4. Resource lists (to be published, need more names)
5. Tool loan program
6. Comanche Docs online project
7. Reno recap (CJ's personal observations)
8. Northeast Comanche Tribe annual meeting Sept 30

The Zoom begins with a preview discussion of the carbon monoxide detector to be offered once again as a group buy. Dr. Koz answered a number of questions about the effects of carbon monoxide poisoning and exposure levels set by various health organizations.

The Zoom then continued through the planned list, covering the parts project items, other group buys, comments on the resource lists, and the tool loan program.

The Zoom ended at that point due to the hour, with plans to continue in the following ComancheZOOM.
