

ComancheZOOM for September 7, 2023

Topic: What's in your Flight Bag?

This week's ComancheZOOM is all about the items you always take with you (or wish you had remembered) in your flight bag. We will assume that you have a GPS or other navigation tool with up-to-date data and the aircraft POH.

Some of the items suggested were.

- Navigation information:
charts, approach plates. NOTAMs, flight plan
- Communication:
hand held radio, cell phone, extra batteries.
- Aircraft information
POH, registration, weight and balance, fuel loading
- Comfort:
snack items, water, overnight kit.
- "What if" items
first aid, flashlight and batteries, basic tools, contact information.

The discussion went on for a while and then expanded to suggested items you might need for survival after an off-airport landing. This topic will be the subject of another ComancheZOOM.

To hear/see the recordings of this Zoom click on a link from the list below:
