Landing Gear! What non-confirmation means... CJ Stumpf

- What do you do when the green light doesn't come on?
- What might be the cause of this problem?
- What do need to be aware of when you swing the gear in the next annual inspection (or sooner)?

How to Fix it

In the short term, it's all about swift action - knowing who to call, where to get qualified help, and how to ensure repairs are done right the first time.

We'll walk through the possible causes behind non-confirmation and explore the chain of effects it can set in motion, so you can stay ahead of the problem rather than chase it.

View this detailed discussion of the diagnosing and repair of a Comanche 260B with a gear system that was "one bounce away from collapse".
