

ComancheZOOM for Thursday, Feb 12, 2026

Topic: Fuel Mismanagement - part 2

Rosemarie Williams continued her presentation on Fuel Exhaustion and Mismanagement. She used FAA accident reports to spark discussion by attendees on probable causes, including pilot errors, resulting in the various descriptions.

A number of CFIs and pilots added their thoughts and helped develop a possible check list for Comanche pilots to prevent or deal with an occurrence in their own aircraft.

Fuel issues are one of the two top causes of Comanche mishaps, the other being landing gear problems.
