

Comanche Webinar for Thursday, March 19, 2026

**Topic: Discussion of upcoming Measurement Workshop for April 11 (or 12)**

Find out what will be happening at this in-person Comanche workshop. The participating CFI/IIIs and A&Ps will be on the Zoom this week to answer questions. Tonight's Zoom is not a training session, merely informational.

This is the event we have been waiting for!! Joe Hand will be discussing the new Maintenance Assessment Clinics kicking off April 11 at ILM (Wilmington, NC). This series of hands-on clinics was conceived to address the epidemic of the two most frequent causes of airframe attrition in our fleet today: gear collapse (and gear-up landings) and fuel system issues. Joe will describe the origins of the assessment based on Hans Neubert's original gear assessment proposals and explain how a pilot and mechanic can attend or participate in these seminars for WINGS/AMT/IA credit.

Join us for the Comanche Type Club's ComancheZOOM.  
Register for WINGS or AMT credit at [wings.northeastcomanche.org](http://wings.northeastcomanche.org)

The April 11 workshop is a fly-in event, requiring registration (see below), and is timed to be convenient for pilots on their way south to Sun 'N Fun at Lakeland FL (KLAL).  
Join us for details!
