

ComancheZOOM for Thursday, May 7, 2026

Topic: Flying with Pets and Children – part 2

Note: this Zoom is approved for FAA Wings credit. Register below.

Tonight's ComancheZOOM featured Rosemarie Williams continuing her presentation on CO poisoning and its effect on small bodies, in particular pets and children. She explained the physiological symptoms and effects from continued CO exposure and the treatment techniques to deal with them.

The Zoom began with a report by CJ on the plans and preparation for the AirVenture type celebration of the Piper Comanche in July. Much of this information will be revisited in the weeks prior to the Oshkosh event, but the discussion and maps were good for our understanding of the requirements.
